

VRI Services for COVID-19 Vaccine Sites

FEMA

The Federal Emergency Management Agency (FEMA) is providing ASL VRI services for Deaf and Hard of Hearing people at vaccine sites.

If the site has their own interpreters or VRI units, please use them. If not, access the FEMA service.

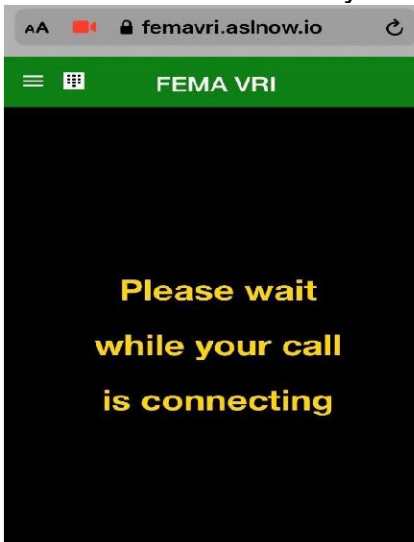

Use your smartphone to connect to www.femavri.com using any browser. Click the blue Connect to FEMA VRI button.

This website for use by Deaf and Hard of Hearing American Sign Language Users or Healthcare Professionals.

Connect to FEMA VRI

In an emergency, dial 911 or your local emergency number immediately.

Allow the site to access your camera and microphone, then wait to connect with an interpreter.

Accessing the service will use data from your cellular plan, but FEMA will pay for the VRI services. This service is only for use at COVID-19 vaccine sites.
